Artist Talk on the exhibition Archives & Orbits
10.06.2025
Bernhard Knaus Fine Art, Niddastrasse 84, 60329 Frankfurt am Main

On the occasion of our current exhibition "Archives & Orbits", we warmly invite you to the finissage on June 10 at 7 PM, followed by an artist talk.

In an engaging conversation between Katja Davar, Flo Maak, Sonya Schönberger, and Christoph Westermeier, you'll learn how the artists of this group exhibition have explored the concepts of "archive" and "orbit" through their artistic practices. Both archives and orbits contain fragments of knowledge, history, and the invisible forces that shape them. The evening offers insights into different perspectives from the fields of painting, photography, and sculpture. Central to the discussion are questions of memory, cycles, our relationship to history, and the visible and invisible structures that shape our understanding of the present and the past.

We look forward to your participation and an inspiring conversation in the midst of the exhibition.
