

Mark Francis

EXTENDED - Resonate: Mark Francis and Andy Cowton
29.04.2022 - 30.06.2022
Ubicua Gallery, London

Resonance is Ubicua's latest project, working with Mark Francis and Andy Cowton.

This set of paintings is primarily inspired by sound, but not necessarily always audible sound. These paintings are also inspired by graphic charts depicting information on numerous topics that, as a result, look like sound wave diagrams.

Sound is a constitutive element in Francis' paintings. Cowton engages to his work, interweaving sound and creating a site where the visual and sound have the opportunity to expand, affect each other and be perceived beyond their respective disciplines.
