Silver Lining Portfolios
15.12.2021

Each of us is affected by the effects of the Corona Virus. BKFA is glad to be able to work with a wonderful circle of established and younger artists.

In the current crisis, it is mainly the younger artists who have no guaranteed income, e.g. have a teaching position to struggle with collapsing earnings. I was wondering how I can help quickly and easily. I remembered my beginnings as an editor 20 years ago. Based on my many years of experience, I have published three exclusive portfolio editions with the title Silver Lining together with 15 artists from the gallery program.

In this unique campaign of solidarity, the artists provided one motif each. The result is a wonderful collection of works that represent the gallery program. The folders each contain 5 inkjet prints in the format 40 x 30 cm, in an edition of 25 each.

In order to quickly alleviate the financial pressure, especially of younger artists, these portfolios are sold at a one-time special price.
