Artist Talk on the exhibition Archives & Orbits

10.06.2025

Bernhard Knaus Fine Art, Niddastrasse 84, 60329 Frankfurt am Main

On the occasion of our current exhibition, "Archives & Orbits", we warmly invite you to an artist talk with the artists featured in the group show, taking place on 10 June at 7pm.

In this engaging conversation, you will discover how the five artists - Katja Davar, Flo Maak, Christa Näher, Sonya Schönberger and Christoph Westermeier - have each explored the concepts of "archive" and "orbit" through their artistic practice. Both archives and orbits contain fragments of knowledge, history, and the invisible forces that shape them. The evening will offer insights into a range of perspectives from the fields of painting, photography, and sculpture. Central to the discussion are questions of memory, cycles, approaches to history, and the visible and invisible structures that shape our understanding of the present and the past.

We look forward to your participation and to an inspiring conversation amidst the exhibition.
